Welcome to Open Learning: Bridge to Success!

Open Learning: Bridge to Success (B2S) offers free, open educational resources to prepare adults to successfully and confidently transition to a college environment, to pursue advanced qualifications, or to be successful in their chosen careers.

Courses

Learning to Learn

Are you considering a change in your life, such as returning to school or pursuing a new career? Learning to Learn will help you build confidence in your ability to be successful in these pursuits and will provide the tools and skills necessary to be successful in an academic settings and in the workplace.

To access Learning to Learn, go to: Learning to Learn

Succeed with Math

Succeed with Math will help you review key math concepts and then apply these concepts to real world applications. Three units are available: Math and You, Getting Down to Basics and Relationships Among Numbers.

Coming soon.

Students | Educators

Bridge to Success will enable you to identify your strengths and skills as a learner and think about ways to use those skills to accomplish personal, professional and academic goals.
